

## MEDIA RELEASE

# Elixirs for Life launches bespoke product line, connecting customers to the life renewing power of plants

**13 FEBRUARY 2019**

What started in 2015 from founder Kandis Twa's multi-year study of the traditional and spiritual uses of plants has grown into a handcrafted Calgary-based apothecary called Elixirs for Life.

All of Elixirs for Life self-care products are made from plants, herbs and flowers that are locally sourced and harvested by Kandis and her team and produced in small batches to ensure potency and freshness.

"The idea for Elixirs for Life came from the initial work and research I was doing on the little-known properties of plants and their ability to affect us on emotional and spiritual levels," said Kandis.

"The products are all created with the intention of bringing about greater balance and wholeness to help you in your everyday life."

The mindfully produced collection includes:

**Busy Bee Honey Facial Rejuvenating Cream** - a collagen promoting royal jelly formulation with Cleopatra's secret oil and bee products from local Alberta hives.

**Sacred Vision Elixir Spray** – a room/meditation spray made of white sage, tobacco, and American plum blossom to help clients come into a new and awakened vision of themselves.

**Future Flow Candle** – a blend of golden champa blossom and the southern bush honeysuckle, this candle is formulated to stimulate your spiritual intuition allowing you to glide into the future with faith and confidence.

Elixirs for Life was launched in 2018 and can be found online at [www.elixirsforlife.ca](http://www.elixirsforlife.ca), and at select stockists in Canada, and at **the Alberta Gift Fair February 24-27, 2019 booth #1206**
